Tulpehocken Middle School

Bernville, PA 19506

Dear Mike,

I wanted to take the time to write to you and again thank you for an outstanding year of fun and entertainment for our Tulpehocken Middle School students. Our success as a club has been linked for 20 years or more with you, your family, and Spectrasound. You have always done an amazing job as DJ for our six yearly events and for that we are really thankful for the relationship with you.

I can't tell you enough how much peace of mind that we have going into each Student Council year, knowing that you will always be there, professional, and willing to work with Kerry and I to make each dance a great experience for our kids. These dances have become the highlights of our year for many students and we will always be grateful to you for how easy you are to work with, but also, how you take a personal pride in seeing that the kids and advisors are happy with your entertainment.

Over the years, we have been impressed how you manage to make the dances school-appropriate and professional on a Middle School-age student. Parents can drop their kids off and know that the dances are managed well by the SC advisors but also that the music and entertainment will be fun and age appropriate. You have made great efforts to make this happen and we are appreciative.

Lastly Mike, we consider you part of the extended family here at Tulpy. Your own kids attended here and you have always had a personal interest in our school. Now that they have graduated, you continue to foster and encourage a great relationship with our students and especially with Kerry and I as advisors. We know that you care about kids and have been flexible with us when it comes to costs, entertainment and just overall willingness to meet our needs and our kids. We do not take you for granted and wanted you to know how much you are appreciated. We are already looking forward to a great 2025-2026 and we are confident knowing it will be successful because of you and Spectrasound Entertainment. Thanks!

Wishing you continued success,

Mike Mulholland/ Kerry Lehman
